MADE HOMELESS BY MISSISSIPPI

Hundreds of Families Lose All Their Belongings by the Flood.

(By Associated Press.)
ST. LOUIS, MO., March 9.—One hundred families living below Alton, Ill., have been rendered homeless and many have lost their belongings as a result of a rise in the Mississippi River. The river also threatens to inundate the fine farming lands on Missouri Point, across the river, and farmers and stockmen are preparing to move.

Hundreds of farmers living in the lowlands about Harrisburg, Ill., have been forced to move by the rising of Saline and Bankston creeks, some abandoning stock to the flood. For miles the country thereabouts is a sheet of water. Reports from Hannibal, Mo., state that the Mississippi is sending down great volumes of water and the river is higher for this time of the season than for years.

Rising at Memphis.

(By Associated Press.)
MEMPHIS, TENN., March 9.—The river at this point to-night shows a feet and rising. Weather conditions are similar over much of the vast area drained by the Mississippi and its tributaries from the head waters of the former to the Gulf, and reports of rising waters. It is upon this condition and the fact that the levees built since the flood of 1897 have very materially narrowed the river, that the statement of the probable stage of 38 feet is based.

The levees on both the east and west sides of the Mississippi are being strengthened at all weak points. There is little anticipation of serious trouble until the water approaches 38 feet.

Situation at Jackson.

JACKSON, MISS., March 9.—The river front situation is alarming. Word was received here today that an overflow in certain, The levee is in good shape, except in one or two places, and they are being carefully guarded.

Immediately after this, while Hughes and his brother Lewis were in front of the courthouse, the Kennedys joined them and young Kennedy struck Ed. Hughes with a stick. Lewis Hughes caught and held Will Kennedy, whereupon Mr. Jesse L. Kennedy fired at Ed. Hughes with a .38 calibre pistol, missing him. TO COLONIZE IN VIRGINIA

Cleveland Capitalists to Buy Many Acres.

WILL PARCEL THIS OUT

Their Plan is to Bring in Farmers and Teach Them How to Get Best Results—Agent Got Plan-tation for Himself.

(Special to The Times-Dispatch.)
SPRINGFIELD, OHIO, March 9.—Geo. H. Burrows has returned from a three weeks' trip through Virginia on a tour of inspection, in the interest of a number of Cleveland capitalists.

The plan which they intend to carry out is a rather novel one. A number of Cleveland men, of which Mr. Burrows is one, recently became interested in the great agricultural possibilities of some of the Southern States. It was recognized that there is a vast amount of land in Virginia, especially, that is purchasable at a very low figure, and produces almost nothing at present. Mr. Burrows will organize a company for the purpose of purchasing of from 20,000 to 30,000 acres of land in one of the locations visited by him. This would involve a capitalization of probably over \$100,000. They will parcel the land out in farms and induce farmers to move in with their families and buy the land on easy terms, living in settlements so as to avoid the loneliness to which the Northern farmer so strongly objects.

They also think of starting near the center of the settlement a model farm, managed by a scientific agriculturist, so as to teach the farmers how to make the most out of their land.

Mr. Burrows says that he has bought a plantation for himself.

(By Associated Press.)

The court held previously that the statement of Ensign Wortman could not be used, and upon objection of counsel for the defense the court to-day ruled that none of the original testimony could be used, as the witnesses were all present, and the conclusions of the board or the remarks of the Secretary of the Navy be admitted as evidence.
